

CUSTOM LEATHER SUIT ■ FEMALE MEASUREMENT FORM

All measurements in centimetres ■ Flexible tape ■ Form-fitting base layer

How to measure: Wear form-fitting base layers (cycling shorts, t-shirt). Keep the tape comfortably snug. Enter all values in **cm**. Sub-items (e.g. 6A, 7a) refine the parent measurement ■ provide all that apply. See the full reference diagram on the last page.

FitFirst ■ System ■ where these measurements fit in

1. You send detailed body measurements using this template, plus riding position notes.
2. We build a textile try-on suit to these measurements and ship it to you.
3. You test it on the bike, tell us any changes, and we refine the pattern until the fit is right.
4. Only then do we cut leather and produce your final suit ■ eliminating guesswork.

BODY MEASUREMENTS ■ FEMALE

NO	MEASUREMENT	HOW TO MEASURE	CM
1	Full Height	Stand straight, bare feet, floor to crown	
2	Neck — Circumference	Around the base of neck, above collarbone	
3	Upper Arm — Circumference	Around the widest point of upper arm (bicep)

ORDER & CUSTOMER DETAILS

Order Number	NF – ____ – ____	Suit Style	One-Piece / Two-Piece
Customer Name		Perforations	Yes / No
Full Address	incl. ZIP & Country	Speed Hump	Yes / No
Mobile / WhatsApp		Ext. Titanium Protectors	Yes / No
Email		Removable Lining	Yes / No
Customer Weight	_____ kg	Logo Application	Direct Print / Stitched Patches
Gender	Female	Lining Colour	Red / Black
		Matching Gloves	Yes / No Size: _____
		Matching Boots	Yes / No Size: _____
		Special Remarks	

Special Back Protector: If you intend to use a custom or aftermarket back protector inside your leather suit, **all body measurements must be taken while wearing that protector**. Please state the brand/model in Special Remarks.

IMPORTANT NOTES

- Wear your back protector during ALL measurements if you plan to use one inside the suit.
- If your jacket has an airbag system, wear it during measurements and note the brand in Special Remarks.
- ✓ Once you receive your fitment suit, try it in the riding / racing position to fully assess the fit.
- ✓ Have a second person photograph you in the fitment suit. Self-taken photos with outstretched arms distort fit assessment.
- ✓ Any sizing concern — however small — should be communicated to us before production begins.
